EDI Link
Version 9.0

Integration Solutions That Fit

EDI Consulting Group, Inc.—A Proven Leader

EDI Consulting Group has an unprecedented commitment to customer satisfaction, which allows us to guarantee your company's e-Commerce initiatives are successful. As a leader in the industry, you can rest assured knowing that EDI Consulting Group is on your team.
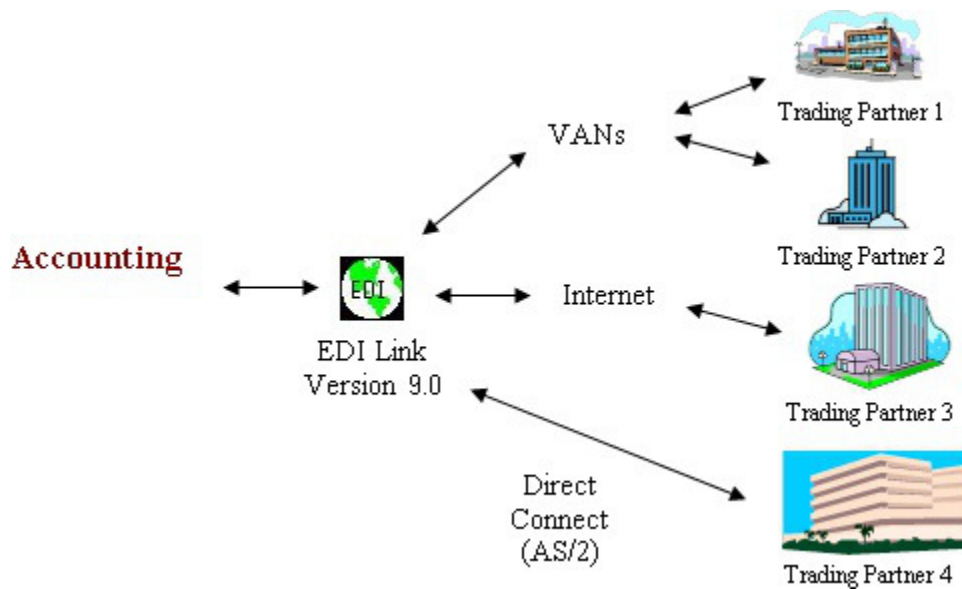

Getting Started with EDI

Whether it's ANSI X-12, UN EDIFACT, VICS, TDCC, ASCI, AIAG, UCS, or XML, EDI Consulting Group can fulfill all of your EDI needs. Getting started with EDI is very simple. Within 24 hours from the time you inquire, our panel of EDI coordinators will have a plan of action in place including: Pricing, Estimated Implementation Time, Testing Procedures, Training Information, and Overall Scope of the entire project. From there, it is up to your company to decide if EDI Link v9.0 is the way to go.

The Link (bridge)

The Link, commonly known as the bridge, is what makes EDI Link v9.0 different from all other EDI software packages. The difference is that EDI Link v9.0 will automatically incorporate data into and from the appropriate accounting module, without the need for a separate piece of software. EDI Link v9.0 provides the bridge between your accounting system and your EDI trading partners, thus allowing sales orders, purchase orders, and invoices (among others) to be processed and/or generated and posted to the appropriate ledgers.

Trading Partners

With over 3,500 different mapping guides in, EDI Consulting Group has the resources to set up EDI with any trading partner that you may sell to, or buy from. There are many methods of communication that trading partners use. The most common is a value added network (VAN). Other ways include: EDI via the internet, FTP, and direct connect with the trading partner. Whatever requirements your trading partners have, EDI Link v9.0 will allow you to continue to grow your business by fulfilling all of your EDI communication needs.

Documents

The most common documents used today are: purchase order (850), invoice (810), functional acknowledgment (997), advance shipment notification (856), purchase order change (860), and payment order/remittance advice (820). There are over 1,000 different documents for EDI. EDI Link v9.0 is equipped and prepared for any and all documents that your trading partners may require. Choose to Process a document into accounting, generate a report or export the information into a spreadsheet, EDI Link works to get your data to you. Whether it's a purchase order (850) or a planning schedule with release capability (830), EDI Link can do the job right!
